SPIL

THINKING ABOUT PROFITABILITY

SPIL DELIVERY SCANNER APP

Smart delivery tracking and confirmation for flat glass fabrication

Smarter deliveries. Clearer visibility. Stronger control.

Smart Deliveries for the Flat Glass Industry

The SPIL Delivery Scanner Mobile App is purpose-built for drivers and delivery personnel in the flat glass industry. It enables real-time, accurate record-keeping and strengthens the supply chain—helping teams complete more deliveries with full accuracy, speed, and confidence.

REDUCE DELIVERY ERRORS

Minimize mistakes and claims with built-in scanning, validation, and digital confirmations, ensuring that every delivery is accurate and complete.

POWERED PROOF OF DELIVERY

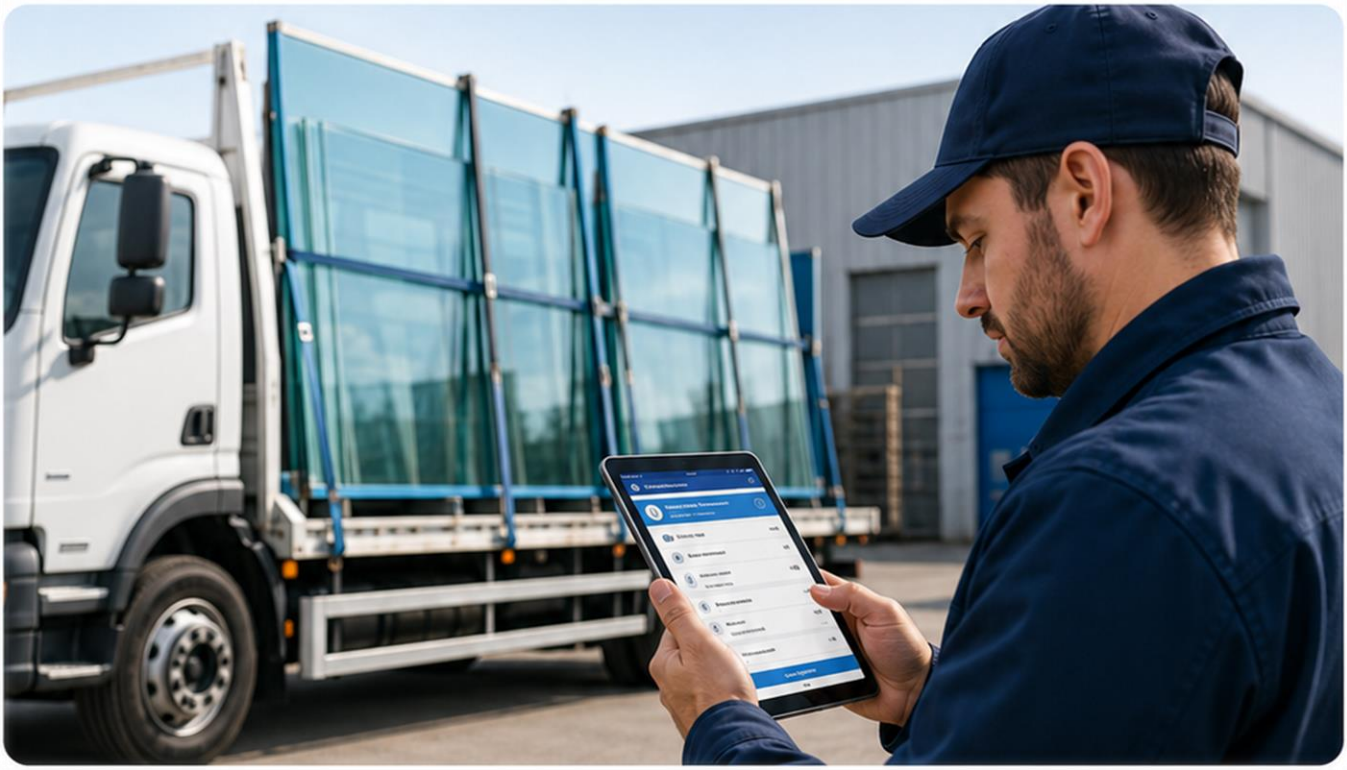
Capture signatures, timestamps, proof of delivery, and damage records digitally—providing reliable evidence and peace of mind for every transaction.

BUILT FOR DRIVER EFFICIENCY

An easy-to-use, mobile-first solution that works offline, captures accurate information, and syncs in real time—helping drivers deliver more, every day.

SEAMLESS ERP INTEGRATION

Syncs effortlessly with your SPIL Glass ERP system, keeping inventory, orders, and customer records accurate and up to date.



Why Choose the SPIL Delivery Scanner App

The SPIL Delivery Scanner Mobile App is a must-have for businesses in the distribution and processing industry, offering powerful tools to cut down on admin work and boost delivery accuracy.

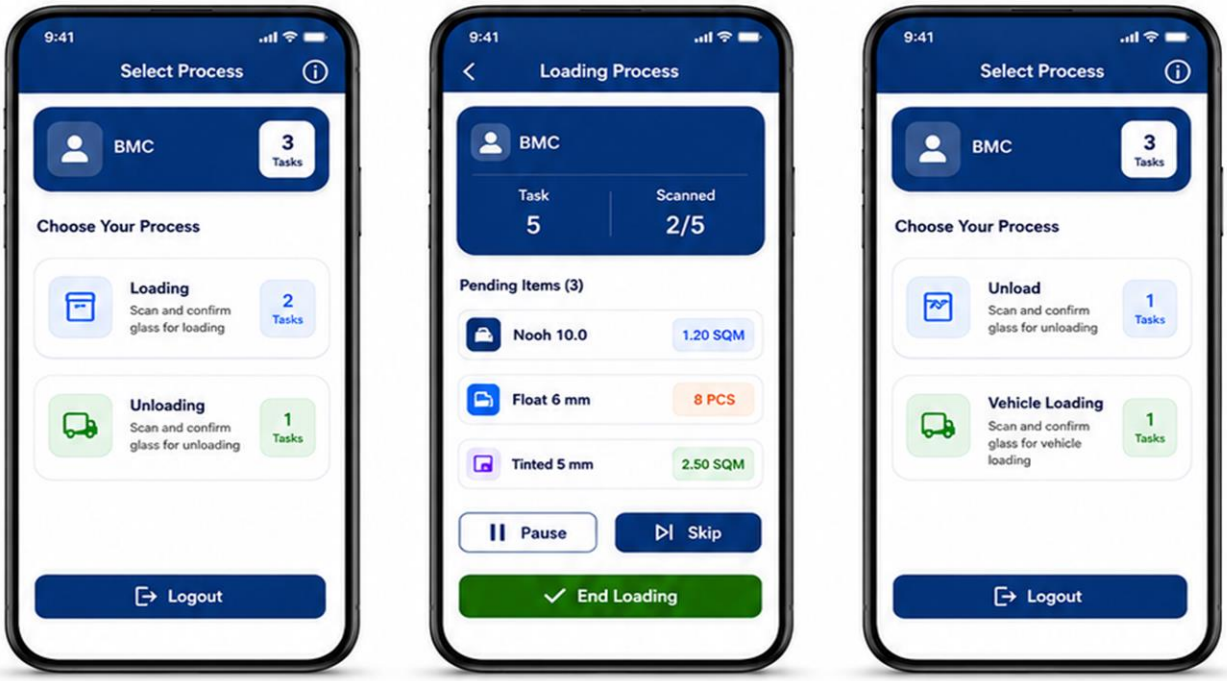
Why it's Different:

Paperless Delivery Management – Say goodbye to physical paperwork. Capture digital signatures, confirm deliveries instantly, and update records on the spot—saving time and reducing errors.

Real-Time Glass Shipment Tracking – Monitor every delivery as it happens, ensuring glass products reach customers on schedule with full visibility.

Built-in Glass Order Scanning – Quickly scan and verify glass items, update delivery logs, and maintain error-free, efficient operations.

Seamless SPIL ERP Integration – Automatically sync delivery data with your SPIL Glass ERP system, keeping inventory, orders, and customer records up to date in real time.



How the SPIL Delivery Scanner Mobile App Supports Your Business

01. Streamlined Delivery Operations

Enable your delivery team to scan and verify glass products in seconds, reducing manual paperwork. Real-time updates help your team and customers stay informed throughout the delivery process.

02. Reduced Paperwork, Increased Efficiency

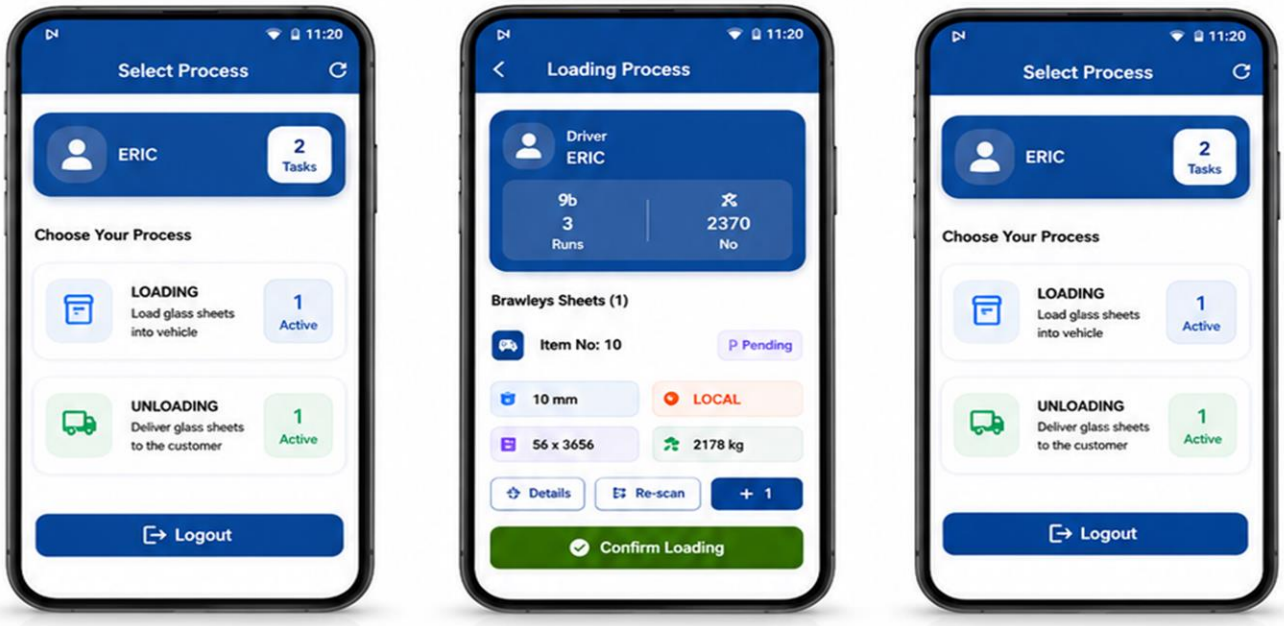
With digital documentation, drivers no longer need to manage physical forms. Delivery records are captured instantly, improving accuracy and saving time.

03. Greater Convenience for Drivers

The intuitive mobile workflow helps drivers complete delivery tasks quickly and confidently, making day-to-day operations smoother and more efficient.

04. Instant Data Synchronization with ERP

Captured delivery information is automatically synced to the SPIL ERP system, keeping records up to date and improving communication across production, inventory, and customer management.



SPIL Delivery Scanner App helps glass delivery teams work faster, reduce paperwork, and keep delivery records connected with SPIL Glass ERP.

Testimonials

Brandon and Peter- Directors
WA GlassKote, Perth – Western Australia

Today, we are Perth's largest manufacturer of glass splashbacks and have now expanded into large format porcelain tiles without the need for further software investment. We recommend contacting SPIL Software and discussing ways to increase your profits.

Steve Reynolds – IT Manager
Chevron Glass Pty Ltd, Adelaide – South Australia

The dedicated SPIL Glass team worked closely with Chevron Glass staff and continue to do so, offering efficient program development and communication with key Chevron staff. A good working relationship has been established and continues to develop.

Christian Auer - Head of IT
Rottler und Rüdiger und Partner GmbH – Germany

Our main company is Rottler und Rüdiger und Partner GmbH, a manufacturer of special machinery for IGUs' and MPK Modelle profile Konfektion GMBH is our subsidiary supplier of final material components for IGU manufacturers and for that we use enhanced features of SPIL Opti to produce those profiles.
