SPIL Lite EDI: Streamlining Sales Order Workflow

with SPIL Software

QUICK ACCESS TO SHAPE LIBRARY:

With SPIL Lite EDI, we provide a standard shape library in the EDI customers' side to send the shapes included in the sales orders.

PRICE AVAILABILITY:

The prices which have been provided to the customer will be retrieved automatically in the SPIL Lite system, enabling them to generate and send purchase orders seamlessly.

PRE-DEFINED TEMPLATES:

SPIL Lite system is feasible to create and maintain templates to select and send to parent company to match with product codes.

UP-TO-DATE STATUS:

The parent customer's side displays the number of incoming orders available for download, facilitating easy access and management. And, SPIL Lite customer can see the different status of orders they have sent. All the sent orders will keep archived in the SPIL. Additionally, upon order processing, customers receive order confirmations for their records.

QUICK SETUP AND EASY ACCESS:

The setup process is effortless as no configuration is required on your customers' end. They simply need to log in with their username and password to access SPIL from any location and proceed with order entering. And this feature will also be beneficial for your sales staff too.

REPORTS:

A wide range of reports is available for your customers to easily generate and access as needed.

FOR GLAZING/ INSTALLATIONS:

Installation/Glazing department can also be treated as a customer, enabling them to place orders through this platform.

TECHNOLOGY:

Technologically, we leverage Microsoft Cloud services for seamless integration, which proves highly advantageous as it aligns all stakeholders - customers, sales staff, within a cohesive ecosystem.
